

To Whom it may concern,

Thankyou for taking the time to read these comments.

I would like to discuss LPFM "04-233" K-love radio has been our radio station of choice for the last two years. We have been supporting this stations out of our limited funds because we see and hear the impact of this station in our children and others who listen. K-love even though it is national helps inform us of local events that are free. Our children are singing songs that K-love airs that are helping them with their memory and lyrical abilities. and are reinforcing values, that I find on only one other radio station in the area. The only problem with the other radio station is all the ads that are on it.

If K-love were to be replaced by another station it might not have the same family friendly programming that we have come to enjoy. K-love also supports wholesome values and has a positive and encouraging impact on our community.

We do not have another Christian radio station in the area that does not have ads.

Please keep K-Love service in our area.

Thank you for your time and consideration.  
God Bless you!

Sincerely,

Brad Meyers, Corvallis OR 97330
